

[SEGMENT: Wave Accounting users that haven't signed up for Wave Payments in their dashboard.]

Ouch. Did you just send *another* invoice reminder?

You should let Wave take care of your busy work.

Shauna at Wave Accounting

Imagine *not* having to follow up with your client.

Multiple times.

After.

Every.

Invoice.

And *not* wondering whether seven (now eight) reminders is too many.

And *not* sending 13 how-to screenshots. With instructions your 5-year-old niece could understand. On the off-chance it will help your client pay you faster.

Spoiler alert: They won't.

You shouldn't spend half your Monday following up on outstanding invoices. (There goes 5 hours, 9 emails, and all your patience.)

Stop sending reminders to forgetful, unorganized clients.

Instead, set up Payments on your Wave dashboard.

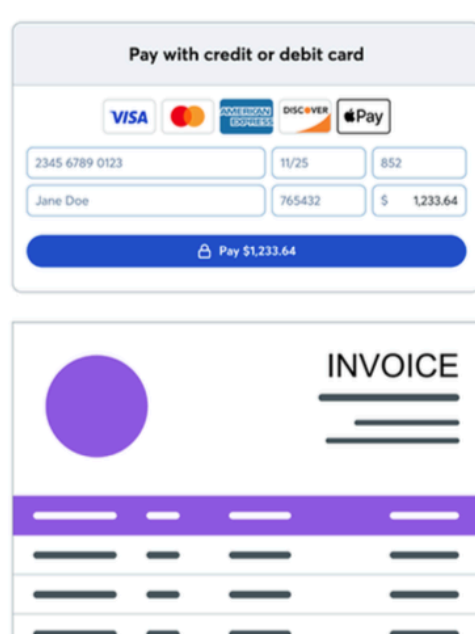

So you can get paid on time. Every time.

Wave Payments lets you set up recurring invoices. Or one-time payments. Whatever you need.

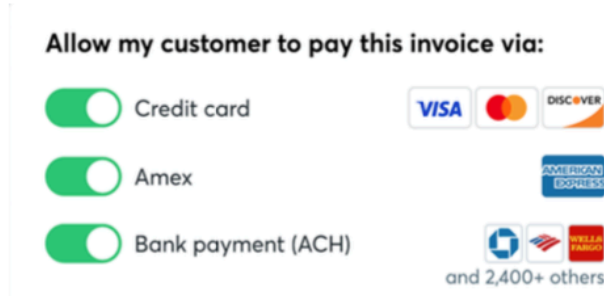

Step 1: Schedule your invoice with Wave Payments.

Step 2: Let us take care of the reminders.

Your client will get invoices, instructions, and gentle reminders from Wave.

Your clients can choose from multiple payment methods, including ACH, credit card, and Apple Pay.

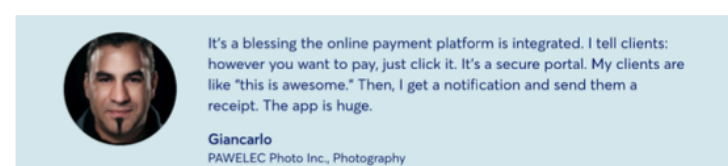

Problem clients? Not yours.

Wave Payments turns your invoices into your clients' simplest to-do.
